Pavan Pendurthi

Research Intern @ IIT Guwahati | CompTIA Security+ | Vulnerability Assessment | Secure Systems & IoT Security | Digital Forensics & OSINT | Network Defence & Red Teaming
Chandigarh, India

Summary

Cybersecurity researcher and Information Security undergraduate focused on secure systems engineering, adversarial security research, and intelligent cyber defense architectures.

Hands-on experience with: Wireshark, Nmap, Metasploit, Burp Suite, network traffic analysis, reconnaissance methodologies, and security experimentation across controlled environments.

CompTIA Security+ certified with strong interest in:

Cyber Defense Engineering

Offensive Security & Security Research

AI-Augmented Security Systems

Critical Infrastructure & Secure Embedded Systems

Next-Generation Detection & Response Architectures

Experience

Indian Institute of Technology, Guwahati

Research Intern

May 2026 - Present (1 month)

Andhra Pradesh Police

Freelance

January 2026 - January 2026 (1 month)

Contributed confidential OSINT findings to Andhra Pradesh Police for a cybercrime case involving unauthorized social media account compromise and digital evidence analysis.

Education

CHANDIGARH UNIVERSITY

Bachelor of Engineering - BE, Computer Science (Information Security) · (August 2023 - September 2027)

Tirumala Jr.College

Class 11th & 12th , (Mathematics,Physics,Chemistry) · (September 2021 - March 2023)

Sri Chaitanya Techno School, Jangareddygudem

Class X · (November 2020 - April 2021)
